

## WITTENSTEIN withdraws from sps 2021

November 17, 2021

Owing to the sharp rise in the infection rate in Germany generally, and in Bavaria and its near neighbors in particular, WITTENSTEIN SE has decided to withdraw from sps 2021 in Nuremberg. By electing to prioritize health considerations over economic interests, the company is reaffirming its clear commitment to the responsibility it has to protect the health of employees, customers and visitors to the trade fair.

WITTENSTEIN SE develops customized products, systems and solutions for highly dynamic motion, maximum-precise positioning and smart networking for mechatronic drive technology.

All the latest information on the product highlights which WITTENSTEIN was intending to show at sps in person can still be accessed on [www.wittenstein.de](http://www.wittenstein.de).

Texts and photographs in printable quality can be downloaded from [presse.wittenstein.de](http://presse.wittenstein.de)

### WITTENSTEIN – one with the future

With around 2800 employees worldwide and sales of €373 million in 2020/21, WITTENSTEIN SE enjoys an impeccable reputation for innovation, precision and excellence in the field of cybertronic motion – not just in Germany but internationally. The Group possesses exceptional expertise for the mastery and further development of all technologies relevant to mechatronic drives and comprises six innovative Strategic Business Divisions. We develop, produce and sell products such as high-precision servo drives and linear systems, servo systems and motors as well as cybertronic drive systems for many areas of application including machine and plant construction, aerospace or oil and gas exploration. Nanotechnology and software components round off the portfolio. With 25 sites in more than 45 countries, the WITTENSTEIN Group ([www.wittenstein.de](http://www.wittenstein.de)) is represented in all major technology and sales markets.
