

WITTENSTEIN cyber motor GmbH: New second Managing Director

As of February 1, 2022, WITTENSTEIN cyber motor GmbH will once again be run by a tandem: Dr. Edgar Olbrant will share the management of this WITTENSTEIN Group subsidiary with Dr. Michael Geier.

37 year-old Dr. Edgar Olbrant succeeds Dr. Ingolf Gröning, who is no longer with the company. Olbrant is a technically minded leader who until recently worked for Robert Bosch Kft. in Budapest as Engineering Director, Electrical Drives and has a lot to contribute to the WITTENSTEIN Group. His new role at WITTENSTEIN cyber motor GmbH will be Managing Director Technology with responsibility for Development, Technology Research, Production and the firm's Romanian production facility in Șura Mică.

WITTENSTEIN cyber motor GmbH is a supplier of demanding servo motors, drive electronics and complete drive systems with maximum power density: rotary and linear synchronous motors as well as actuators, servo drives and specialized motors for extreme conditions and customized solutions.

WITTENSTEIN – one with the future

With around 2800 employees worldwide and sales of €373 million in 2020/21, WITTENSTEIN SE enjoys an impeccable reputation for innovation, precision and excellence in the field of cybertronic motion – not just in Germany but internationally. The Group possesses exceptional expertise for the mastery and further development of all technologies relevant to mechatronic drives and comprises six innovative Strategic Business Divisions, **including WITTENSTEIN cyber motor GmbH**. We develop, produce and sell products such as high-precision servo drives and linear systems, servo systems and motors as well as cybertronic drive systems for many areas of application including machine and plant construction, aerospace or oil and gas exploration. Nanotechnology and software components round off the

November 23, 2021

WITTENSTEIN SE develops customized products, systems and solutions for highly dynamic motion, maximum-precise positioning and smart networking for mechatronic drive technology.
